Re: Request for Information Pursuant to Section 104 of CERCLA
for the Downers Grove Groundwater Site in Downers Grove,
DuPage County, Illinois

Dear Sir or Madam:

This letter seeks your cooperation in providing information and documents relating to the contamination of the the Downers Grove Groundwater Site in Downers Grove, DuPage County, Illinois ("Site"). A Superfund site is a site contaminated with high levels of hazardous substances that may present a threat to human health or the environment.

We encourage you to give this matter your immediate attention and request that you provide a complete and truthful response to this Information Request and attached questions (Attachment B) within twenty-one (21) days of your receipt of this letter.

The United States Environmental Protection Agency ("U.S. EPA") is investigating the release or threat of release of hazardous substances, pollutants, or contaminants at the Site. U.S. EPA is seeking to obtain information concerning the generation, storage, treatment, transportation, and methods used to dispose of such substances that have been, or threaten to be, released from the Site. U.S. EPA will study the effects of these substances on the environment and public health. In addition, U.S. EPA will identify activities, materials, and parties that contributed to contamination at the Site. U.S. EPA believes that you might have information which may assist the Agency in its investigation of the Site.

The U.S. EPA is currently investigating the source of a contaminated groundwater plume in Downers Grove, Illinois. Water

samples taken from several private wells have tested above the maximum contaminant level (MCL) of 5 parts per billion for trichloroethylene (TCE) & tetrachloroethylene (PCE). The source or sources of the plume are believed to originate in the Ellsworth Industrial Park which is bounded by the BNSF railroad tracks (approximately 5000 south) to the north, Belmont Road (2200 west) on the east, Maple Avenue (approximately 2900 west) on the west and 63rd Street to the south.

Description of Legal Authority

The federal "Superfund" law (the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. §9601, et seq., commonly referred to as "CERCLA" and "Superfund") gives U.S. EPA the authority to, among other things: (1) assess contaminated sites, (2) determine the threats to human health and the environment posed by each site, and (3) clean up those sites in the order of the relative threats posed by each.

Information Request

Under Section 104(e) (2) of CERCLA, 42 U.S.C. §9604(e) (2), U.S. EPA has broad information gathering authority which allows U.S. EPA to require persons to furnish information or documents relating to:

- (A) The identification, nature, and quantity of materials which have been or are generated, treated, stored, or disposed of at a vessel or facility or transported to a vessel or facility.
- (B) The nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at or from a vessel or facility.
- (C) Information relating to the ability of a person to pay for or to perform a cleanup.

While U.S. EPA seeks your cooperation in this investigation, compliance with the Information Request is required by law. Please note that false, fictitious, or fraudulent statements or representations may subject you to civil or criminal penalties under federal law.

Some of the information U.S. EPA is requesting may be considered by you to be confidential. Please be aware that you may not withhold the information upon that basis. If you wish U.S. EPA

to treat the information confidentially, you must advise U.S. EPA of that fact by following the procedures outlined in Attachment A, including the requirement for supporting your claim for confidentiality.

If you have information about other parties who may have information which may assist the Agency in its investigation of the Site or may be responsible for the contamination at the Site, that information should be submitted within the time frame noted above.

This Information Request is not subject to the approval requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. §3501 et seq.

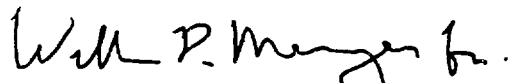

Instructions on how to respond to the questions in Attachment B to this document are described in Attachment A. Your response to this Information Request should be mailed to:

U.S. Environmental Protection Agency
Carol Ropski
Emergency Enforcement & Support Section, SE-5J
77 West Jackson Boulevard
Chicago, Illinois 60604-3590

If you have additional questions about the history of the Site, the nature of the environmental conditions at the Site, or the status of cleanup activities, please contact Steven Faryan at (312) 353-9351. However, if you have specific questions about the Information Request, please contact Carol Ropski at (312) 252-7647. Legal questions should be addressed to Thomas Krueger at (312) 886-0562.

We appreciate and look forward to your prompt response to this Information Request.

Sincerely,

Richard C. Karl, Chief
Emergency Response Branch

Enclosures

Attachment A
Information Request

Instructions

1. Answer Every Question Completely. A separate response must be made to each of the questions set forth in this Information Request. For each question contained in this letter, if information responsive to this Information Request is not in your possession, custody, or control, please identify the person(s) from whom such information may be obtained.
2. Number Each Answer. Precede each answer with the corresponding number of the question and the subpart to which it responds.
3. Provide the Best Information Available. Provide responses to the best of Respondent's ability, even if the information sought was never put down in writing or if the written documents are no longer available. You should seek out responsive information from current and former employees/agents. Submission of cursory responses when other responsive information is available to the Respondent will be considered non-compliance with this Information Request.
4. Identify Sources of Answer. For each question, identify (see Definitions) all the persons and documents that you relied on in producing your answer.
5. Continuing Obligation to Provide/Correct Information. If additional information or documents responsive to this Request become known or available to you after you respond to this Request, U.S. EPA hereby requests pursuant to Section 104(e) of CERCLA that you supplement your response to U.S. EPA.
6. Confidential Information. The information requested herein must be provided even though you may contend that it includes confidential information or trade secrets. You may assert a confidentiality claim covering part or all of the information requested, pursuant to Sections 104(e)(7)(E) and (F) of CERCLA, 42 U.S.C. §§9604(e)(7)(E) and (F), and Section 3007(b) of the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. §6927(b), and 40 C.F.R. §2.203(b).

If you make a claim of confidentiality for any of the information you submit to U.S. EPA, you must prove that claim.

For each document or response you claim confidential, you must separately address the following points:

1. the portions of the information alleged to be entitled to confidential treatment;
2. the period of time for which confidential treatment is desired (e.g., until a certain date, until the occurrence of a specific event, or permanently);
3. measures taken by you to guard against the undesired disclosure of the information to others;
4. the extent to which the information has been disclosed to others; and the precautions taken in connection therewith;
5. pertinent confidentiality determinations, if any, by U.S. EPA or other federal agencies, and a copy of any such determinations or reference to them, if available; and
6. whether you assert that disclosure of the information would likely result in substantial harmful effects on your business' competitive position, and if so, what those harmful effects would be, why they should be viewed as substantial, and an explanation of the causal relationship between disclosure and such harmful effects.

To make a confidentiality claim, please stamp or type "confidential" on all confidential responses and any related confidential documents. Confidential portions of otherwise nonconfidential documents should be clearly identified. You should indicate a date, if any, after which the information need no longer be treated as confidential. Please submit your response so that all non-confidential information, including any redacted versions of documents, is in one envelope and all materials for which you desire confidential treatment are in another envelope.

All confidentiality claims are subject to U.S. EPA verification. It is important that you satisfactorily show that you have taken reasonable measures to protect the confidentiality of the information and that you intend to continue to do so, and that it is not and has not been obtainable by legitimate means without your consent. Information covered by such claim will be disclosed by U.S. EPA only to the extent permitted by Section 104(e) of CERCLA. If no such claim accompanies the information

when it is received by U.S. EPA, then it may be made available to the public by U.S. EPA without further notice to you.

7. Disclosure to U.S. EPA Contractor. Information which you submit in response to this Information Request may be disclosed by U.S. EPA to authorized representatives of the United States, pursuant to 40 C.F.R. §2.310(h), even if you assert that all or part of it is confidential business information. Please be advised that U.S. EPA may disclose all responses to this Information Request to one or more of its private contractors for the purpose of organizing and/or analyzing the information contained in the responses to this Information Request. If you are submitting information which you assert is entitled to treatment as confidential business information, you may comment on this intended disclosure within fourteen (14) days of receiving this Information Request.

8. Personal Privacy Information. Personnel and medical files, and similar files, the disclosure of which to the general public may constitute an invasion of privacy, should be segregated from your responses, included on separate sheet(s), and marked as "Personal Privacy Information."

9. Objections to Questions. If you have objections to some or all the questions within the Information Request letter, you are still required to respond to each of the questions.

Definitions

The following definitions shall apply to the following words as they appear in this Information Request.

1. The term "**arrangement**" means every separate contract or other agreement between two or more persons, whether written or oral.

2. The term "**documents**" includes any written, recorded, computer-generated, or visually or aurally reproduced material of any kind in any medium in your possession, custody, or control, or known by you to exist, including originals, all prior drafts, and all non-identical copies.

3. The term "**hazardous substance**" shall have the same definition as that contained in Section 101(14) of CERCLA, and includes any mixtures of such hazardous substances with any other substances, including mixtures of hazardous substances with petroleum products or other nonhazardous substances. The term

"hazardous substance" shall include all chlorinated solvents and chlorinated solvent mixtures.

4. The term **"identify"** means, with respect to a natural person, to set forth: (a) the person's full name; (b) present or last known business and home addresses and telephone numbers; (c) present or last known employer (include full name and address) with title, position or business.

5. With respect to a corporation, partnership, or other business entity (including a sole proprietorship), the term **"identify"** means to provide its full name, address, and affiliation with the individual and/or company to whom/which this request is addressed.

6. The term **"material"** or **"materials"** shall mean any and all objects, goods, substances, or matter of any kind, including but not limited to wastes.

7. The term **"person"** shall include any individual, firm, unincorporated association, partnership, corporation, trust, or other entity.

8. The term **"pollutant or contaminant"** shall include, but not be limited to, any element, substance, compound, or mixture, including disease-causing agents, which after release into the environment will or may reasonably be anticipated to cause death, disease, behavioral abnormalities, cancer, genetic mutation, physiological malfunctions (including malfunctions in reproduction) or physical deformations; except that the term **"pollutant or contaminant"** shall not include petroleum.

9. The term **"real estate"** shall mean and include, but not be limited to the following: land, buildings, a house, dwelling place, condominium, cooperative apartment, office or commercial building, including those located outside the United States.

10. The term **"release"** shall mean any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment, including the abandonment or discharging of barrels, containers, and other closed receptacles containing any hazardous substance or pollutant or contaminant.

11. The term **"Site"** shall mean the Downers Grove Groundwater Superfund Site which is a groundwater contamination plume believed to originate from releases in the Ellsworth Industrial

Park, which is bounded by the BNSF railroad tracks (approximately 5000 south) to the north, Belmont Road (2200 west) on the east, Maple Avenue (approximately 2900 west) on the west and 63rd Street to the south, in Downers Grove, DuPage County, Illinois.

12. The term **"waste"** or **"wastes"** shall mean and include trash, garbage, refuse, by-products, solid waste, hazardous waste, hazardous substances, and pollutants or contaminants, whether solid, liquid, or sludge, including but not limited to containers for temporary or permanent holding of such wastes.

13. The term **"you"** or **"Respondent"** shall mean the entity that this Information Request was addressed to. The term **"you"** also includes any officer, managers, employees, contractors, trustees, successors, assigns, and agents of Respondent.

Attachment B
Requests

1. Identify all **persons** consulted in the preparation of the answers to these Information Requests.
2. Identify all **documents** consulted, examined, or referred to in the preparation of the answers to these Requests, and provide copies of all such documents.
3. If you have reason to believe that there may be persons able to provide a more detailed or complete response to any Information Request or who may be able to provide additional responsive documents, identify such persons.
4. Identify all persons having knowledge or information about the generation, transportation, treatment, disposal, or other handling of hazardous substances by you, your contractors, or by prior owners and/operators.
5. Between 1950 and the present, did you ever use, purchase, store, treat, dispose, transport or otherwise handle any hazardous substances or **materials** (including chlorinated solvents) at any location in the Ellsworth Industrial Park? If the answer to the preceding question is anything but an unqualified "no", identify:
 - a) The chemical composition, characteristics, physical state (e.g., solid, liquid) of each hazardous substance;
 - b) Who supplied you with such hazardous substances;
 - c) How such hazardous substances were used, purchased, generated, stored, treated, transported, disposed, or otherwise handled by you;
 - d) When such hazardous substances were used, purchased, generated, stored, treated, transported, disposed, or otherwise handled by you;
 - e) Where such hazardous substances were used, purchased, generated, stored, treated, transported, disposed, or otherwise handled by you; and
 - f) The quantity of such hazardous substances used, purchased, generated, stored, treated, transported, disposed or otherwise handled by you.

6. Describe the nature of your activities or business at the Site between 1950 and the present, with respect to purchasing, receiving, processing, storing, treating, disposing, or otherwise handling hazardous substances or materials at the Site.

7. State the dates during which you owned, operated, or leased a portion of the Site, and provide copies of all documents evidencing or relating to such ownership, operation, or lease arrangement (e.g., deeds, leases, etc.).

8. Provide information about any facilities you have ever owned or operated at the Site, including but not limited to the following:

- a) Property boundaries, including a written legal description;
- b) Location of underground utilities (telephone, electrical, sewer, water main, etc.) and underground tanks;
- c) Surface structures (e.g., buildings, tanks, etc.);
- d) Ground water wells, including drilling logs;
- e) Storm water drainage system, and sanitary sewer system, past and present, including septic tank(s), subsurface disposal field(s), and other underground structures; and where, when and how such systems are emptied;
- f) Any and all additions, demolitions, or changes of any kind on, under, or about the Site, to its physical structures, or to the property itself (e.g., excavation work); and any planned additions, demolitions, or other changes to the Site; and
- g) All maps and drawings of the Site in your possession.

9. Identify all past and present solid waste units (e.g., waste piles, landfills, surface impoundments, waste lagoons, waste ponds or pits, tanks, container storage areas, etc.) at any facility you owned or operated at the Site. For each such solid waste unit identified, provide the following information:

a) A map showing the unit's boundaries and the location of all known solid waste units whether currently in operation or not. This map should be drawn to scale, if possible, and clearly indicate the location and size of all past and present units;

b) The type of unit (e.g., storage area, landfill, waste pile, etc.), and the dimensions of the unit;

c) The dates that the unit was in use;

d) The purpose and past usage (e.g., storage, spill containment, etc.);

e) The quantity and types of materials (hazardous substances and any other chemicals) located in each unit;
and

f) The construction (materials, composition), volume, size, dates of cleaning, and condition of each unit.

g) If unit is no longer in use, how was such unit closed and what actions were taken to prevent or address potential or actual releases of waste constituents from the unit.

10. Identify the prior owners or any property you owned or operated at the Site from 1950 to the present. For each prior owner, further identify:

a) The dates of ownership;

b) All evidence showing that they controlled access to the Site; and

c) All evidence that a hazardous substance, pollutant, or contaminant, was released or threatened to be released at the Site during the period that they owned the Site.

11. Identify the prior operators, including lessors, of any property you owned or operated at the Site from 1950 through the present. For each such operator, further identify:

a) The dates of operation;

b) The nature of prior operations at the Site;

c) All evidence that they controlled access to the Site;
and

d) All evidence that a hazardous substance, pollutant, or contaminant was released or threatened to be released at or from the Site and/or its solid waste units during the period that they were operating the Site.

12. Provide copies of all local, state, and federal environmental permits ever granted for your Facility or Facilities in the Ellsworth Industrial Park or any part thereof (e.g., RCRA permits, NPDES permits, etc.).

13. Did your Facility or Facilities in the Ellsworth Industrial Park ever have "interim status" under RCRA? If so, and the Facility does not currently have interim status, describe the circumstances under which the Facility lost interim status.

14. Did your Facility or Facilities in the Ellsworth Industrial Park ever file a notification of hazardous waste activity under RCRA? If so, provide a copy of such notification.

15. Provide all reports, information, or data related to soil, water (ground and surface), or air quality and geology/hydrogeology at and about the Site. Provide copies of all documents containing such data and information, including both past and current aerial photographs as well as documents containing analysis or interpretation of such data.

16. Identify all leaks, spills, or releases into the environment of any hazardous substances, pollutants, or contaminants (including chlorinated solvents) that have occurred at or from your Facility or Facilities at the Site. In addition, identify:

a) When such releases occurred;

b) How the releases occurred;

c) The amount of each hazardous substances, pollutants, or contaminants so released;

d) Where such releases occurred;

e) Any and all activities undertaken in response to each such release or threatened release, including the notification of any agencies or governmental units about the release.

f) Any and all investigations of the circumstances, nature, extent or location of each release or threatened

release including, the results of any soil, water (ground and surface), or air testing undertaken; and

- g) All persons with information relating to these releases.

Provide copies of all documents related to these leaks, spills or releases.

17. Was there ever a spill, leak, release or discharge of hazardous materials (including chlorinated solvents) into any subsurface disposal system or floor drain inside or under any building you own or operate at the Site? If the answer to the preceding question is anything but an unqualified "no," identify:

- a) Where the disposal system or floor drains were located;
- b) When the disposal system or floor drains were installed;
- c) Whether the disposal system or floor drains were connected to pipes;
- d) Where such pipes were located and emptied;
- e) When such pipes were installed;
- f) How and when such pipes were replaced, or repaired; and
- g) Whether such pipes ever leaked or in any way released hazardous materials into the environment.

Provide copies of all documents related to these leaks, spills or releases or discharges.

18. Did any leaks, spills, or releases of hazardous materials (including chlorinated solvents) occur at any Facility you own or operate at the Site when such materials were being:

- a) Delivered by a vendor;
- b) Stored (e.g., in any tanks, drums, or barrels);
- c) Transported or transferred (e.g., to or from any tanks, drums, barrels, or recovery units); or
- d) Treated.

If so, provide copies of all documents relating to these leaks, spills or releases.

19. Has soil ever been excavated or removed from the Site? Unless the answer to the preceding question is anything besides an unequivocal "no," identify:

- a) Amount of soil excavated;
- b) Location of excavation;
- c) Manner and place of disposal and/or storage of excavated soil;
- d) Dates of soil excavation;
- e) Identity of persons who excavated or removed the soil;
- f) Reason for soil excavation;
- g) Whether the excavation or removed soil contained hazardous materials and why the soil contained such materials;
- h) All analyses or tests and results of analyses of the soil that was removed from the Site;
- i) All persons, including contractors, with information about (a) through (h) of this request.

If so, provide copies of all documents relating to these excavations or removals.

- 20. Provide records from 1950 through the present showing how much chlorinated solvent/cleaner or other chlorinated materials were purchased for any Facility or Facilities you own or operate at the Site. Provide records from 1950 through the present, which show how much chlorinated solvent/cleaner or other chlorinated materials were sent from the Facility or Facilities you own or operate at the Site to be recycled or disposed. Provide the manifests showing such recycling or disposal.
- 21. Provide all records regarding the disposal of solid waste from the Facility or Facilities you own or operate at the Site from 1950 to present.

Jill,

We have some ancient three ring binders, and this is the history according to entries in those binders:

Liberty Copper and Wire Co., a Delaware company formed on 4/5/56, was acquired on 6/12/70 by Jefferson Electric Company and was merged into Litton Systems, Inc. on 8/31/72 (another entry shows that it became the Liberty Copper and Wire division of Litton Systems, Inc. (Jefferson Electric Company was incorporated on 2/17/67 as Electric Product Manufacturing Co. and was merged into Litton Precision Products, Inc. on 8/2/70.)

Liberty was sold to Magnetek, Inc. of The Spectrum Group, Inc. on 7/1/84.

Liberty Copper and Wire's address was 2333 Wisconsin Avenue, Downers Grove, IL 60515, and its business was "magnetic wire, bunched and stranded copper wire, bare and tinned aluminum wire."

James Nelson will see if there is anything else on the Secretariat database and get back to you.

Hope this helps.

Ann

I received another request from US EPA about a former Litton facility that operated in Downers Grove, IL. The name of the facility was Liberty Copper and Wire. My recollection is that Litton sold Liberty Copper and Wire to MagneTek Inc. in about 1984-1985. Could you please give me the name and address of that operation, the years of operation, the date of sale and the entity to which it was sold.

I appreciate your assistance.

Palmer, Jill
